

Restaurant Table Reservation System

Objectives

- Build a digital table reservation platform allowing diners to book tables at restaurants online.
- Enable restaurant owners to manage reservations, seating layouts, and waitlists efficiently.
- Reduce no-shows and improve dining experience through automated confirmations and reminders.

Deliverables

- A fully functional Restaurant Table Reservation System.
- Restaurant listing with cuisine, location, and available time slots.
- Interactive table map for selecting preferred seating.
- Reservation confirmation with email notification.
- Restaurant admin panel for managing bookings and floor layouts.

Requirements

- HTML: Structure reservation forms, table maps, and admin dashboards.
- CSS: Design an elegant dining-themed visual interface.
- JavaScript: Handle time slot logic, table availability, and interactive maps.
- Backend: Manage reservations, table inventory, and notification scheduling.
- Database: Store restaurants, tables, reservations, users, and feedback.

Advanced Features

- No-Show Management: Track no-shows and flag repeat offenders.
- Special Occasion Handling: Let guests request decorations or cakes for celebrations.
- Pre-Order Menu: Allow guests to pre-select dishes during reservation.
- Waitlist Management: Auto-notify waitlisted guests on cancellations.
- Loyalty Rewards: Earn points for dining frequency redeemable for discounts.
- Multi-Location Support: Manage reservations across multiple restaurant branches.
- Reviews After Dining: Send post-visit feedback requests automatically.
- QR Code Table Check-In: Allow guests to check in at the restaurant via QR.

- Mobile Responsiveness: Optimized for mobile reservation booking.
- Analytics Dashboard: Covers filled, peak hours, popular time slots, and revenue.
- Payment Gateway: Collect reservation deposits via Stripe to reduce no-shows at booking time.
- Pre-Order Payment: Charge for pre-selected dishes at reservation time with kitchen notification.
- Deposit Refund on Cancellation: Automatically refund deposits when guests cancel within the policy window.
